EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Applicant's arguments, see remarks page 1, paragraph 3, filed 7/20/2005, with respect to the concavely curved cavity walls have been fully considered and are persuasive. The objection to the drawings has been withdrawn.

The following is an examiner's state of reasons for allowance:

The instant invention is deemed to be an unobvious improvement over Wahlmark (U.S. Patent 2,611,318) and Gardner (U.S. Patent 3,071,014). Wahlmark discloses a swash plate style pump where the location of contact between the contact surfaces and the reciprocating members can change when said outer race rotates about the swash plate drive shaft and relative to the housing. However, Wahlmark does not teach of the reciprocating members defining a cavity receiving the outer race, with spaced contact surfaces (amendment to claim 1, lines 14-15 and 17-18).

Any comments considered necessary by applicant must be submitted not later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
